

The Taiwan Philosophical Logic Colloquium (TPLC), a biennial event since 2012, returns for its fifth edition, TPLC-V, with a focus on “Pathways of Epistemological Enquiries.” TPLC-V aims to transcend traditional boundaries by inviting a diverse mix of epistemologists and logicians, from classical theorists to pioneers in epistemic logic. Our goal is to foster a comprehensive and comparative study of epistemological issues, paving the way towards a unified approach to these fundamental questions. TPLC-V aspires to be a melting pot of ideas, where East meets West in the pursuit of philosophical excellence and innovation in epistemological inquiry.
